**Eddy Renio, Director of Golf Report:** Eddy Renio presented his report, key points follow:

The recovery of overseed at Riverview and Lakes West is progressing well and they expect to see some very thick spots as the original seed is still there.

The Grills are experiencing and increase in participation and the cosmetic changes at North are very positive.

The Golf expo was a great hit with members and residents who attended the event. They were able to demo new equipment, try out a three-wheel golf cart and speak to representatives from Sun City Golf leagues.

While we have to follow ADWR restrictions to reach limits imposed they are defined as total water usage for our courses, so we have some control on how we use our water, and how it impacts our turf reduction.

**New Business:** None.

**Guests Comments:**

Will we be using a new Architect in the future? No, we like the one we are using.

Why haven't we seen the results of the play using 4 some's? We did not have enough data, so the study was extended through April 2026. Note a review of tee times showed that 24% were no shows.

The current system we are using is costly to continue with and we need to start using newer and better tee time scheduling systems.

Can the summary of the committee meetings be sent out via E-Mail to individuals? Committee summaries are available online on the RCSC web site.

While playing Willow Creek I noticed that when the greens mowers leave the greens to turn, they are causing damage to the surround. The Director of Golf will talk to the superintendent.

Is there a chance we will return to 5 carts? We are not anticipating going back to 5 carts.

Can the golf chart that shows type of memberships and rounds it take to make a choice of which type to use be updated to include the surcharge? It will be addressed.

**Adjournment:** The Meeting was adjourned at 10:05am.

**Next Meeting:** December 11, 2025, at 8:30am – Lakeview Social Hall #2

Respectfully submitted,

Richard Lybolt Secretary
